

Rough road ahead?
...We can help you
stay on course.

All schools educate their students. But a great school - one with vast impact and a tradition of intellectual leadership - brings in true differentiation in education. Since 1992, students from across UAE and abroad have enrolled at Delta English School, where they have been challenged to their highest potential, to reap the benefits which DES have to offer.

As you are preparing to make an important decision in your child's life, what challenges would you want them to pursue and where would you choose for them to take it on?

For many the journey begins at DES. Begin yours today by contacting or meeting an Admissions Representative for further information.
